Dear Mr Bond,

In the public interest and in the interest of assisting Congress in its current investigation of anti-competitive practices by Facebook Inc, I provide the House Judiciary antitrust subcommittee herewith full copies of about 7,000 pages of internal Facebook correspondence, messages, emails, tables, notes from discovery, databases and documents, provided to me as a professional journalist in February 2019.

In the course of reporting this material widely in the United Kingdom and in the United States, I have been aware of the Committee's recent multiple requests for internal information directed to Facebook Inc. I understand that the Committee has required Facebook Inc to supply the specific material that is now enclosed, and that Facebook Inc has failed to comply.

I am ready and willing to respond to further enquiries from yourself and the Committee.

Yours faithfully

Duncan Campbell
